### HORSE KILLED BY AUTO

In an accident which occurred on the Maysville pike, two miles from Paris, Friday, night, an automobile struck a team of horses, attached to a farm wagon, killing one of the animals. The horse's mate was found standing by the side of the dead animal. The ownership of the wagon and team, and the identity of the occupants of the auto was not established.

An investigation is being conducted by the authorities.

Later investigation developed the fact that the horse was the property of Will Mastin, of near Carlisle. The horse, with its mate, had wandered from the Mastin place about a week ago, and Mr. Mastin had been unable to locate them, until he heard about the horse being killed near Paris. He came to the scene and recognized the animal as his property. Portions of fine nickel trimmings were found in the animal's body. Nothing has yet been learned as to whose machine killed the horse.
